

# MY PATTERN

BIG FAMILY PRESS  
002 WITH OOMK

We can learn about how people live through the art they make and leave behind. Patterns found on walls, in paintings, on fabric and decorated items often depict objects and activities that are particular to that place and time.

You will need

- Colour pens or pencils

*"Some are for what is fun, some are about what you do in school, and some are for what is not fun. There are both playground and cleaning up things."*

Write as many objects as you can think of relating to the following words:

HOME

FUN

YOUR  
NEIGHBOURHOOD

SCHOOL  
OR WORK

The page has been divided into four boxes.  
Make a pattern by drawing some of the objects you have written.

What do these objects say about who you are and what you do?

If you're doing this with some other people - like a class - you might like to cut your paper into quarters and group your patterns together by type. Can you see any similarities with other people's patterns?

If your pattern was turned into a poster, where would you put it up?
